Statement of Company Aims, Principles and Practice

This Statement is available to all personnel, agents, parents, students and host families.

Our Aims

Regency Education is an experienced educational guardianship agency committed to providing the highest levels of pastoral and educational support and a safe and caring environment for international students and their parents whilst working closely with our partner schools and host families.

Our overriding aim is to enrich the lives and educational experience of all pupils in our care and to remove the associated worries and concerns for parents.

We aim to ensure that our personnel fully meet the standards and requirements of current safeguarding and child protection legislation and practice in respect of the care of international students while studying in the UK.

Regency Education aims to maintain the highest standards of care, safety and supervision in respect of the pastoral, social, cultural and educational welfare and wellbeing of international students in our care.

Our Principles

We are passionate champions of the young, recognising that a child's educational years are central in shaping their character and destiny.

We add value by encouraging every student to fulfil their potential and are fully committed to safeguarding and promoting their welfare.

When not at school, we ensure that students have a safe and happy home where they are encouraged to succeed, experience new skills and fulfil their potential.

Everything we do is guided by the principle that a happy student is a successful student. The interests, safety and wellbeing of all students in our care is our primary concern. This is true when dealing with parents, schools, agents, third party suppliers and host families.

We support the ethos and principles that AEGIS promotes, which form the core of the services that we provide.

We provide opportunities for continued training and development of all those representing Regency Education.

We expect all parties who we deal with to abide by our principles and we actively encourage such behaviour.

We promote an environment of trust, openness of communication between students, schools and Regency Education staff and host families, so that the student welfare, safety and pastoral care is recognised as a top priority.

Code of Practice

- To promote and provide best practice in the guardianship and hosting of all international students at schools, colleges and universities
- To respect and support the rights, religion and customs of the international students
To uphold the stated ethos and values of the school at all times
- To comply with the 1989 & 2004 Children Act and meet the requirements of the most recent versions of the Department for Education Working Together to Safeguard Children 2 & Keeping Children Safe in Education 3
- To ensure all international students have 24 hour emergency contact with their guardian in the UK
- To put in place arrangements which maintain appropriate contact with the international student, the overseas parent and homestay and to ensure all appropriate records are up to date
- To provide both pastoral and educational support as outlined in our documents and agreements
- To have appropriate insurance and to comply with UK legislation
- To ensure that all our documents and information is accurate, conveying realistic expectations of the level of service and accommodation offered
